

Ways to Give to the School of Environmental and Biological Sciences

Your support for the Rutgers School of Environmental and Biological Sciences can help us to address some of the most pressing problems of our time. Choose the type of gift that best suits you.

Endowments are invested in a fund held by the university in perpetuity. Part of the interest is used annually to serve the purpose initially designated by the donor. Your endowment fund can be named after a loved one.

Unrestricted Gifts are allocated where they are most needed by our dean, senior faculty, or staff members. Typically, unrestricted gifts go to scholarships, equipment, and funding of study trips.

Restricted Gifts are allocated where you choose. You can direct your gift to match your interests in one of our many project areas, such as sustainable alternative energy sources, food and nutrition for better health, or internationalizing education.

Annual Giving generates millions of pledges and gifts every year, thanks to the generosity of our alumni and friends and the dedication of our staff and volunteers. You can decide where your gift will be used. Annual giving provides critical support for a variety of needs. Please welcome our telefund callers when they call!

To donate to a specific program, please contact Marie B. Prieur, director of development, at 732-932-9000, ext. 576 or development@sebs.rutgers.edu.

To donate online to the general school fund, go to the Rutgers Foundation's secure site at support.rutgers.edu/donate.shtml. Click on "New Brunswick Campus," then select our school in the first drop-down list.

Make a Difference of a Lifetime!

From funding research and scholarships to building the infrastructure that allows us to pursue our mission, you can make the difference of a lifetime.

Student Support

"My experiences here have been some of the best of my life and are only possible with the help of a scholarship like this one. Not only have I received a superb education and met some fabulous people, but I have also been able to have experiences with animals I love. These experiences have prepared me for veterinary school and some have even changed my life. I am so grateful to you for your help in making these experiences possible."

Megan Mackalonis, Animal Sciences Major, University Merit Scholarships - Outstanding Scholars

Undergraduate Scholarships When you support undergraduate scholarships, you allow well-deserving students with low financial means to attend our school.

Graduate Fellowships Make SEBS a better choice for promising researchers and allow our school to build on their talent to reach levels of excellence.

Faculty, Research, and Program Support

Help us become leaders by delivering cutting-edge knowledge and expertise. Programs benefit from the recruitment of talented people or the launch of new initiative to find innovative solutions to local or global issues.

Building and Facilities

From the renovation of a laboratory to the restoration of historic buildings on the G. H. Cook Campus like the Round House, to the erection of new, state-of-the-art, and environmentally intelligent buildings, you won't be short of opportunities for a lasting imprint.

Investing in education is investing in the future. Please contact The Office of Development at 732-932-9000, ext. 576 or development@sebs.rutgers.edu for more information.

For more information, visit us at www.sebs.rutgers.edu/development.
